Expense Reimbursement Policy

Policy ID: POL-EXPENSE-04

Version: 1.5

Status: active

Jurisdiction: US

Effective Date: 2026-01-01

Owner: Finance

1. General Guidelines

This policy outlines the procedure for reimbursing employees for out-of-pocket expenses incurred during the course of business operations.

2. Submission Deadlines

All expense reports must be submitted within 30 days of the transaction date. Expenses submitted after 60 days will be permanently denied without exception. Reports must be filed via the Expensify portal.

3. Receipt Requirements

Itemized receipts are strictly mandatory for any individual expense exceeding $25. Credit card summary slips that do not show the itemized breakdown are unacceptable and will be rejected by Finance.

4. Overlap with Other Policies

- Travel Meals: Standard daily meals during travel are covered by the Travel Policy (POL-TRAVEL-03) per diem and do not require receipts. However, business meals involving client entertainment must be submitted as expenses here, requiring itemized receipts and a list of attendees. - Hardware: Keyboards, mice, and home-office equipment must be expensed using the WFH Home Office Stipend (POL-WFH-01). Laptops and monitors cannot be expensed; they must be procured through IT.

5. Prohibited Expenses

The company will not reimburse: alcohol (unless part of an approved client dinner), parking tickets, traffic violations, personal grooming, or in-flight entertainment.
